  - TAZ, Freitag, FR, Sueddeutsche, MoPo, NZZ, DUZ, Emma
  - Social Democrats, die Linke, Green Party

- no reaction

- but more 500 signatures after 2 weeks

- people from different countries (29) signed:

Austria, Belgium, Croatia, Denmark, Germany, Estonia, Finland, France, GB, Hungary, India, Israel, Italy, Jordan, Montenegro, Netherlands, Nigeria, Norway, Poland, Russia, Sweden, Switzerland, Singapore, Slovenia, Spain, Turkey, Ukraine, United Arab Emirates, USA

- need to further advertise appeal

- what can everyone do ?

- post on Facebook, LinkedIn

- what else ?

# Science4Peace Forum

Appeal: no first – never use of nuclear weapons

- Goal:
  - since we do not easily get many signatures from everybody, focus on science community
  - significant amount of signatures from science community > 1000 at least
  - need to further advertise in Science community:
    - how can we advertise it within the experimental and theory communities ?
      - email via central email list was denied.
      - advertise it on mattermost ?
      - other options ?

## Publication Strategy of CERN experiments

- Publication strategy in HEP experiments (CERN etc ) not yet settled, further discussions ongoing. New proposals:

### **Proposal C:**

"Affiliated with an institute [or an international laboratory] covered by a cooperation agreement with CERN."

- *is not endorsed by all 4 experiments, discussions are ongoing.*

### **Proposal D:**

All authors and their ORCID identifiers (where available) are listed on the publication. No institute affiliation is listed.

- *is next option, to be discussed with CERN management.*
- *Problem is, that funding agencies might not agree with only ORCHID*

## Conferences in HEP

- Next round of conferences, often in-person-meeting
  - DIS 2023 in US:
    - difficulties for Visa for people from certain countries, impossible for scientists from Russia
    - online conferences would be alternative
    - we could ask at least for optional hybrid mode ?
      - prepare a letter on this ?
